

This was my first AASL Conference I have attended. I absolutely loved it! The educational tour to the Wabasha Street Caves was amazing. I did not realize there was so much history so close to home.

The breakout sessions were very educational and helpful. There were so many good choices it was hard to choose. I really enjoyed the presentations and the choice of the current hot teen titles.

It was wonderful to meet and visit with other librarians from other states. I felt the conference was very well organized and presented. Thank you so much for having it close to home so I was able to have the experience of attending such an awesome event!

Thank you again,

Carrie Ham
