

Northern Lights Library Network

Director's Report February 21, 2015

Northern Lights Library Network (NLLN) is a cooperative network of members in academic, public, school, and special libraries in 23 counties of North-central, North-west and West-central Minnesota. Northern Lights Library Network is funded by the Minnesota State Legislature through the Minnesota Department of Education

Develop activities that bring all libraries together. Provide ongoing internships for graduates and undergraduates interested in careers in Library and Information Science

Jordan Schroeer, Communication Specialist Intern, completed his fall internship. Jordan created NLLN's first Facebook page, wrote press releases, and promoted NLLN. Media advisories have been written and submitted to newspapers and media outlets. Jordan completed the *Directory of Legislators in the NLLN Region* that is hosted via Omeka on the NLLN website (nlln.org).

Katelyn Ostby is working as an intern with NLLN from January 2015 through June 2015, and applying to graduate schools of Library and Information Science. She is assuming duties of the Communication Specialist, along with completing the data collection for comparing reading scores with schools that have media specialists in the region. Katelyn may also assist Campbell-Tintah Schools as they automate their card catalog to Destiny. Katelyn completed her undergraduate degree in English, with honors, from NDSU, December 2014.

Conduct research. Kathy conducted qualitative, grounded theory research to determine what multitype library systems do. *The Function, Responsibilities, and Duties of Multicounty, Multitype Library Systems in Minnesota* research is completed and currently in use by the multi-type systems in Minnesota as an infographic to ask for increased funding from the legislature.

The Function, Responsibilities, and Duties of Multicounty, Multitype Library Systems in Minnesota

The seven multicounty, multitype library systems in Minnesota function as intermediary between all types of libraries, ensuring that resources are shared and cooperation occurs among all library types, including academic libraries, public libraries, school libraries, and special libraries. Through library cooperation and resource sharing, Minnesotans receive the best library service possible, in the most efficient manner. Each multicounty, multitype system is as unique as the libraries they serve. The multicounty, multitype library systems in Minnesota are Arrowhead; Central Minnesota Library Exchange (CMLE); Metronet; Northern Lights Library Network (NLLN); Southwest Area Multicounty, Multitype Interlibrary Exchange (SAMMIE); Southeast Library System (SELS); Traverse de Sioux Library Cooperative (TdS). The multicounty, multitype systems are mandated by Minnesota Statute 134.351.

During 2014 and 2015, a qualitative grounded theory study of the responsibilities and function of the multicounty, multitype library systems in Minnesota was conducted by Northern Lights Library Network and reviewed by the multitype system directors. The study used as data fourteen quarterly reports from 2009 to 2014 submitted to Minitex recorded in the multitype system wiki. Each line from each report was coded, categorized, and analyzed for themes. It was determined from the reports that multicounty, multitype library systems in Minnesota perform the following duties:

Broadsides

At the Library

Lina Belar

All summer long, my sister and I
read books that take us places we have
never been and likely will never see.

I am to the T's in the
adult fiction section of the public library
a faded Victorian house filled with books
tended by two maiden women
who sort and clean donated books
catalogue them, honor Dewey.

I read everything by Erich Maria
Remarque, acquire a stunning
grasp of the vernacular that I expect
to keep well hidden.

My sister, two years younger,
is reading things like "The Bobbsey Twins"
and Nancy Drew mysteries.
"Is that a good one," I ask her one day.
"Oh yes," she answers, "I'm almost done.
But there's another book in the series."

We breathe a sigh of relief knowing
there are more worlds left to travel
than the ones that await us in this quiet town.

Temples they were.
Domes.
Stone steps.
Ancient rites of purification.
Prim priestesses
guarding pristine pages.

O Andrew.

I didn't mean to
stain your steps
with pink rain from
Woolworth's
soda fountain.

Birch Bark Biting

Denise K. Lajimodiere

I study the spring peeled
bark, gathered when leaves
unfolded. Thunderbirds,
wings spread wide, gaze
back at me. I peel the amber
bark into thin layers, careful
not to tear claw marks.
I place the folded bark in my
mouth, biting down with eye
teeth, closed eyes see designs.
I unfold a flower, turtle,
or dragonfly, hold
it to the light, feathery bite
marks glow through
transparent wings.

North of North

by Mark Vinz

Today with no surprise
the windchill sinks to 50 below.
The mailman slouches up the walk,
head down, the way we all learn how
to walk on this far edge.
Friends write to say how cold it must be here,
and thank whatever gods they have
this weather's north of them, far north.

But we say it too--
it's always colder somewhere else.
We praise our plows and furnaces,
fall back again on what we know:
there are no last words,
and what we speak of
is neither storm nor chill,
but what would happen if all letters stopped –
that other winter, directionless,
colder than ice, deeper than snow.

Used Poetry by Kevin Zepper

After many long miles, my poem finally gave out. What can you expect of a poem after fifteen years of hard driving? Not to say that I overworked the poem or anything. I didn't try to rod on it, peel out with it. I filled it with premium metaphors, never settling for less, changed the punctuation every couple of thousand miles. No different from the next poet.

It served me well but its time had come. It took too long getting started in the morning. On several occasions this past winter I had to jump start it with cables attached to another poem. Sometimes the battery in the poem was so far gone I had to plug it into an anthology overnight just to get it to spark the next morning.

Guess the real trouble started about two years ago, after the accident. My poem got rear ended by a drunk guy with a rock song lyric. Yeah, he had a beater of lyric too: no insurance, nothing. Here I am with a poem all smashed in the rear end, and a bent frame to boot. It took an English professor to pull out all the dents. He did the best he could with it. You know how it is with a poem wreck, though; once you've had an accident with your poem, it never reads the same again.

So here I am, reading through the used poetry section of the paper. I can't really afford to get a new one. I just hope I find a sonnet owned by a little old blue-haired lady. Someone like that would really know how to take care of a poem, always reading it slow and only on Sundays, taking it for regular grammar and simile maintenance, putting in the right metaphors to keep the engine from punning. Whether I find a good used poem or not, it's always tough trading in a poem you've reliably read for so long.

Technology training for librarians in the region to assist them in keeping up with rapidly changing technology. An apps. workshop was planned at Century School in Park Rapids for February 7th, supported by NLLN's trainers and available to librarians from all types of libraries from the region. The February 7 training was canceled, due to lack of interest. NLLN is working with Campbell-Tintah Schools to move their paper card catalog to the Destiny online system. \$1,000 is committed to the transition, along with the opportunity for NLLN's intern, Katelyn Ostby to assist in the transition one day a week. A core group of librarians from the Train-the-Trainers team is visiting the Laporte School Library to assist with reorganizing the library. It may be possible to secure an architect from North Dakota State University to assist with the reorganization. Furniture remaining from MSUM/White Earth may possibly go to Laporte. The largest gift remaining is metal shelving.
